The Cincinnati Police Department Homicide Unit exemplifies the highest standards of law enforcement investigations; and has earned a well-deserved national reputation as a leader in death investigations. Homicide is the most serious crime and has a devastating effect on families and the community. The outstanding men and women of the Homicide Unit work tirelessly to solve homicides and make Cincinnati a safer city.

Over the past five years, the Homicide Unit has maintained a 66% clearance rate for homicides, which is higher than most major cities. In addition to the high clearance rate, the Homicide Unit has initiated three major efforts that use intelligence led policing strategies to target and successfully prosecute violent offenders in an effort to reduce homicides and other violent crime.

The skill, professionalism and dedication to duty of the men and women of the Homicide Unit were clearly evident during a recent high profile homicide investigation. On June 18, 2012, at 1710 Vine Street, the Homicide Unit began an investigation into the shooting death of Africa Hope, a fifteen year old young woman. At the infancy of the investigation, there was very little evidence or cooperation from witnesses. As the investigative team pressed forward, leads were developed resulting in the identification of the murder suspect. With assistance from the Cincinnati Police Department's Fugitive Unit and within a few days of Africa Hope's death, Harold Croft was arrested and charged with her murder.

The outstanding efforts of everyone involved in this investigation gave closure to Africa Hope's family and removed a violent offender from the streets of Cincinnati. Our community is safer due to the outstanding performance of this group of extremely talented and highly motivated detectives.

The members of the Homicide Unit are deserving of this commendation for their continuous display of professionalism and outstanding investigative skills.
